

Second Grade

In reading, second grade students are learning how to summarize the stories that we read. In math, students are working on place value.

Third Grade

In reading third grade is learning about text features and how to use them in order to comprehend the text. In math we are working on being able to fluently multiply and divide within 100.

These students have amazing fluency skills: Kanye Martin, Jayannah Nuckols, LaCoyia Dixon, Ava Rose Bohanan, Hayden Wilkerson, Davion Galloway, & Izaya Bradley.

Fourth Grade

Fourth grade is learning about multiplying using the area model and partial products. In reading fourth grade is learning about summarizing their passages/stories, erosion and weathering landscape changes.

Fifth Grade

In fifth grade we are working extremely hard to be the best students we can be. In reading we are working on how to identify theme and support our inferred theme with evidence from the text. We are also working on summarizing fiction text. In science where working on plants and how they get there energy, and will be learning about ecosystems. In math about standard algorithm. In social studies where learning about the American Revolution.

The Colonel Update
